

## TECHNICAL DATA

Name	<b>20" ACF</b>	
ID	147959	
$U_N / F_N$	V / Hz	240V ~ / 60
$I_{max}$	A	5
PN	W	1142
V	cfm	3534
$\eta_t$	%	29,4
Motor control	Voltage	
Weight with filters	lbs	405
L x W x H	inch	31.5" x 37.25" x 27.25"
Max. humidity	%	70

## ACF

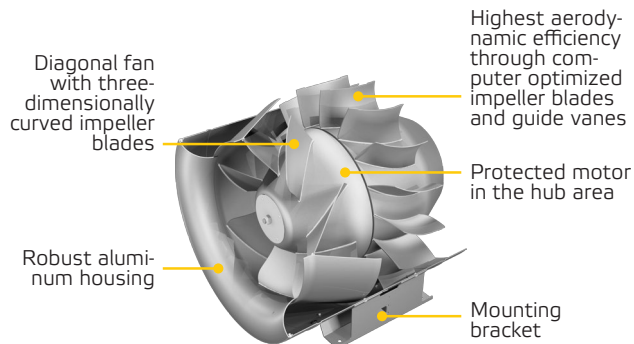

ALL-IN-ONE UNIT WITH CARBON FILTERS

## HOW THE ACF WORKS FOR YOU:

- Your air is at all times clean and odorless
- Highest grade air filtration combined with highest airflow
- 20 carbon filters, easily connected to the unit
- Very powerful 20" Prime fan incorporated
- Over 3500 cfm delivered through filters
- Insulated casing for very quiet operation
- Particulate filter tray for use with optional MERV and HEPA rated filters
- Easy access through service door
- It can easily be combined with rooftop or building HVAC systems

## THE PERFECT SOLUTION FOR GREEN HOUSES WITH POWERFUL Prime fan 3534 cfm

The highest quality carbon filters capture odors, VOCs and ensure clean, fresh air, at all times. Filters are easily connected via a twist-lock bayonet mount.

## THE DESIGN

- Double skinned, galvanized steel casing
- Reliable, smooth and quiet operation
- 30 mm sound insulation
- Powerful voltage controllable Prime fans
- Compact design
- Ability to duct exhaust
- Can be stacked mounted, or hung

## EXTRA AIR FILTRATION OPTION

May be combined with MERV or HEPA filters, to retain particulate contamination, dust and grease elements.
